HIRING PROFESSIONALS

Umbane Innovations partners with skilled and accredited professionals to deliver reliable workmanship. From foundations to finishing, we ensure every stage of your building project is handled by experts.

ROOFING

Umbane Innovations delivers reliable roofing solutions for any home size or design. We use quality materials and professional installers to ensure strong, durable, and weather-resistant roofs. Our services are tailored to your budget and preferred style. From roof selection to final installation, we guide you through every step. With us, your property is protected with long-lasting quality and value.

BRICK LAYING

Umbane Innovations delivers professional bricklaying services for extensions, boundary walls, and full home builds. We use high-quality bricks and proven methods to ensure strong, neat, and long-lasting structures. Our skilled team focuses on precision and durability in every project. We offer options that suit your budget and preferred design. With us, your property is built with reliable workmanship and quality you can trust.

PLUMBING

Umbane Innovations provides reliable plumbing services for new homes, renovations, and repairs. Our team installs and maintains water lines, drainage systems, and essential fittings with precision and care. We use quality materials to ensure safe, efficient, and leak-free performance. All services are tailored to your project needs and budget. With us, your home's plumbing is handled professionally for long-lasting peace of mind.

ELECTRICAL

Umbane Innovations offers professional electrical services for new homes, renovations, and upgrades. Our qualified team installs safe, reliable wiring systems and electrical fittings that meet all compliance standards. We also specialise in the installation and registration of prepaid meters, giving landlords and tenants full control over electricity usage. Every service is tailored to your project needs and budget. With us, your home's electrical system is installed with accuracy, safety, and long-term reliability.
